-  ☐ Determine the type of information you want to include about the people being recognized (for example: photos of primary donors, donation amount, impact stories, etc).
-  ☐ Determine how many levels of recognition to include.
-  ☐ Forecast how many individuals you will recognize in each category.
-  ☐ Determine the format that you would like to use for listing individual names or organizations.
-  ☐ Determine how you'd like the categories to be organized (alphabetical, chronological, by title or by donation amount)
-  ☐ Predict if you will be updating the display and how frequently (quarterly, annually).
-  ☐ Decide if recognition for future donations will be cumulative so that a donor may move from one level to a higher level in the future.
-  ☐ Decide if you want to include a description, quote, other text, or imagery on the display.
-  ☐ Decide if you want to include any monitors or interactive signage in your display.
-  ☐ Determine if additional lighting is required.
